## CONGRESSIONAL PROCEEDINGS.

NEW YORK, Feb. 15.

Private dispatches received here today state

that the land lines through Ireland, connecting

London with the Atlantic Cable, went down, and

were working at noon today. As these lines

traverse the district now in rebellion it was

supposed to be the work of over-zealous Fenians.

NEW YORK, Feb. 15.

The Fenian General Gleason says the vessels

dispatched from New York, also that Stephens is

in Ireland at the head of 800 officers, all known

to have left here.

Valencia, Ireland, Feb. 15—8:40 P. M.

The telegraph wires ceased working between

Valencia and Killybeg at half-past seven last

night, and are still down. The long dispatches,

which were sent through the cable in day, were

received by mail from Killybeg.

ATLANTIC TELEGRAPH OFFICE,

BRANCH OFFICE, Feb. 15—9 P. M.

No further particulars of trouble in Ireland

have been received from Valencia.

NEW YORK, Feb. 15.

The Herald's Chicago special says, The Chi-

cago and St. Louis bridge over the Kankakee River,

at Wilmington, has been swept away by the flood.

At Aurora, Ill., the island, or the lower part

of the city, has been overflowed by the Fox River,

covering the first floor of the houses and com-

pelling families to leave their homes. At

Alton, Ill., the Illinois Railroad bridge has

been destroyed and several steamers and barges

swept from their moorings.

At Dubuque, Iowa, the cellars are filled.

At Waterloo, Cedar Falls and Low Falls,

Iowa, the rivers are on the rampage and much

destruction is feared.

BUFFALO, Feb. 14.

The remaining portion of Table Rock, Niagara

Falls, fell on Tuesday, there fortunately being at

this season no one on it.

NEW YORK, Feb. 15.

The Herald's Washington special says, The

decision of the Court of Claims in the case of

the Government servants, to officers of the army

from the 1st of May, 1864, to the 31st of March,

1865, entitles each officer who served during that

period to \$40 extra for each year of service, in-

cluding the difference per month between \$11 and \$12

the amount paid and the amount which should

have been paid.

The Times special says: Mr. Sumner will offer

one or more amendments to the Louisiana

bill, which will give rise to debate.

Mr. Fessenden will insist on incorporating the

Blaine amendments into the Illinois bill establish-

ing military governments South, and there is a

fair prospect of its adoption by the Senate.

The Northern Pacific Railroad scheme has

been referred to the committee to whom it

was referred declined to act this session.

It is probable that the President, in case the

Senate rejects the amendment, will call on

the President of the Senate, Mr. Webb, of Wis-

consin, as Commissioner of Indian Affairs.

Beveridge, who assisted Mr. Fessenden, cor-

respondent of the Philadelphia Inquirer, in Judge

Fessenden's case, was sentenced by Judge

Fessenden to pay a fine of one hundred and fifty dol-

lars. Beveridge pleaded guilty, and asked the

Court to be lenient in the infliction of the pen-

alty.

The Tribune's special says: Thad Stevens was

unable to leave his home today, on account of

sickness brought on by fatigue and excitement,

resulting from his speech in the House today.

He is expected to leave this morning and

will be carried to his bed and has been unable to see

visitors since. He is somewhat better this evening.

Several leading Republican members of Con-

gress, including those who were Raymond,

Bingham, Hubbell, Buckland and Delano, held a

protracted caucus last night in this city for the

purpose of ascertaining whether a compromise

bill might not yet be passed. It appears there is a

probability of its passage. There seems to be little doubt

that the President is willing to agree upon a

plan for the purpose of accommodating the views

of a majority of Congress, provided they would

meet him in his half way. It appears there is a

## Titusville Morning Herald.

Titusville, Saturday, Feb. 16, 1867.

## THE CULVER TRIAL.

A twenty-four page pamphlet containing a full report of the evidence, speeches of Judge McQuinn, James Kerr, A. B. Richmond, Chas. E. Taylor, Judge Trunkley's charge, and the verdict of the jury. Copies may be obtained at this office, or of H. & C. Co., Titusville, Pa.; S. T. Wright, Flower; W. A. Farnsworth, Boyd Farm; W. H. Nicholson & Co., Petroleum Centre; A. L. Holt, Tarr Farm; Smith, Davis & Co., Franklin; and the newsboys on the Oil Creek & Farmers' Railroad.

## Varieties.

—There are 1,501 pupils in the public schools of Erie.

—Counterfeits of the new five cent coin are circulating. The metal is very poor.

—The trial of John Hickey, of this city, indicted for manslaughter, commences to-day at Meadville.

—Go to Hall's fruit store to get your oysters and Ohio apple-butter. We can warrant both articles of first rate quality.

—A land slide occurred near Irvington, on the Warren & Franklin Railroad, Thursday, blocking the road completely at the point.

—The road was inaugurated by the recent frost, and the traffic work of the Warren & Franklin Railroad near Titusville, was carried off.

—The managers of the Erie County Agricultural Society have decided not to hold any fair this year. The last did not pay expenses.

—We are indebted to Hon. J. H. Ketchum, M. C., for a copy of Luman's Dictionary of Congress, a very interesting and valuable work.

—Prof. Brown's Cornet Band have consented to give a balcony concert this evening at Corinthian Hall, with their new silver instruments.

—The State Senate has instructed its Committee on Vice and Immorality to bring in a bill forbidding the infliction of corporal punishment in schools or prisons in this Commonwealth.

The *Universer*, a Catholic paper published in Philadelphia, announces that Rev. James O'Connor, formerly of Pittsburgh, has been appointed Bishop of the Erie diocese vice Bishop Young, deceased.

—Remember that the exhibition in Corinthian Hall to-night is for the benefit of the Literary Association and the Public Library. Every ticket purchaser is a contributor to a praiseworthy object. Go early and see reserved seats.

—Dr. E. S. Aborn, the noted Aurist and Oculist, has arrived and taken rooms at the Crittenden, where the afflicted can find him, and be treated for their various malades. See the numerous certificates in this issue of the *HERALD*.

—The State Legislature has passed and the Governor has approved, a joint resolution requesting the Pennsylvania members of Congress to vote for a law to enable soldiers who have lost their discharge papers, to receive the bounty now allowed by law.

—The approaching election in the Borough of Shafter is fraught with interest to the residents of that vicinity. We understand that the Radical candidate has been induced to leave an open field to Mr. David H. Cady, who, we are informed, will be the unanimous choice of the borough.

—The first death warrant issued by Governor Gerry was issued on Saturday last. It directs the execution of Alexander B. Wiley to take place at Wilkesbarre, on Friday, the 16th of March. Wiley was convicted of killing a woman named Alice McElwaine, in May last.

—About ten o'clock on Thursday evening the jewelry store of J. N. Newberry, near the passenger depot at Pioneer City, was entered by a party of burglars, who carried off the entire stock. Mr. N. estimates his loss at between \$300 and \$700. Suspicion has fallen upon several parties, but as yet no arrests have been made.

## Reconstruction in Louisiana.

Congress has, by a vote of 119 to 48, passed the bill of Hon. Thaddeus D. Elliot, of Massachusetts, for the reorganization of Louisiana. The bill provides for the nomination of a Governor and Provisional Council of nine members, for the temporary government of the State. The Governor and Council are to be men who have never taken oath to support the Confederate government, and have never given aid, counsel or encouragement to the rebellion.

On the first Tuesday of June, 1867, an election is to be held to choose Governor, Lieutenant Governor, Senate and House of Representatives, at which the following shall be electors: "Every male citizen of the United States, without distinction of race or color, who has attained the age of twenty-one years, and who has never borne arms against the United States since he was a citizen thereof, and who can truthfully take the oath that he has never given aid or comfort to the rebellion."

Upon the third Tuesday of October, A. D. 1867, an election shall be held by all the persons qualified to vote under the provisions of the act for a choice of members to a Convention to adopt a permanent Constitution and form of Government for the State of Louisiana.

The Convention framed by such Convention shall not permit any distinction of men on account of race or color, and shall recognize the power and authority of the Government of the United States to protect and enforce the perpetual nation of the States under such government.

It shall be the duty of the President of the United States to designate forthwith an officer of the Army of the United States who is of rank not below Brigadier General, who shall be stationed in the State of Louisiana, and shall be the Military Commander within the State. It shall be the duty of such Commander to render such support to the civil authorities in the preservation of order and in the enforcement of the laws and rules regulating elections, and also other laws, both of the United States and of the State, as shall insure the full, speedy and impartial enforcement of all such laws, and of equal justice, and this without regard to race or color.

**READ FOR THE SOUTH.**—The Southern Re-Union Commission in New York, has received about \$117,000, and will send its first installment of relief in the shape of \$10,000 worth of corn to Alabama, to be distributed under the direction of the Governor and the Department Commander. Alabama is selected because the need there seems to be more general and pressing than in other States. It is stated that not less than 30,000 persons in that State will have to be fed by public charity until a crop is matured, and a larger number will require partial relief. There is very great suffering in the mountainous parts of the State, where the larger part of the people maintain their subsistence to the Union during the war.

**PETROLEUM SCOTCHION TO-NIGHT.**—Lecture by J. H. Bunting, Songs by P. H. Cronin. Views of wells and towns in the oil region. Admission 50 cents.

**RAILROAD PROJECT.**—The Williamson Bulletin terms that the enterprise of building a new railroad from the Catawba Railroad, in Northumberland county, to the Atlantic & Great Western, in Mercer county, is assuming a definite shape. The report of the engineer, published a year ago, has been fully sustained by the examination made the past season. Philadelphia and the lakes will be connected with grades not exceeding forty feet per mile.

**NO CUTTING OR PROBING ABOUT THE EARS.**—Dr. Aborn, the distinguished Oculist and Aurist Surgeon and Physician for the diseases of the Throat and Chest, who has a world-wide reputation for curing cases after all other means have failed, does not subject his patients to cutting and probing or any other painful operations. Parlor at the Crittenden House from Monday, the 12th, until March the 4th.

## The Lake Erie Press Association Convention.

The first meeting of this institution was held at Erie, January 17, 1867, since which time meetings have been successfully held in Meadville, Cleveland and Jamestown. The annual meeting was to have been held on the 17th of January, but was put over till February 14th, when the members met at Erie, where the Press of that place had made ample arrangements for all who should attend. The wide awake proprietors of Cook's Commercial College adjourned their sessions one day to throw open their doors to the Association.

The following named newspaper men put in an appearance: J. H. Cogswell, Meadville, Pa.; Benjamin Whitman, Observer, Erie, Pa.; J. E. Rogers, Courier, Conneautville, Pa.; Ed. A. Stevens, Journal, Titusville, Pa.; Jesse H. Lord, Scientific American, New York; B. F. H. Lynn, Dispatch, Erie, Pa.; J. R. Graham, Gazette, Erie, Pa.; Charles Edwin Ward, Dispatch, Erie, Pa.; C. E. Benton, Advertiser, Fredonia, N. Y.; Thos. E. Wilson, Dispatch, Erie, Pa.; H. C. Gray, Telegraph, Jamestown, O.; A. M. Clark, Journal, Painesville, N. Y.; C. D. Still, Journal, Dunkirk, N. Y.; E. E. Sterns, Chautauque Democrat, Jamestown, N. Y.

Samuel Woods, Dispatch, Erie, Pa.; M. D. Cushing, Union, Dunkirk, N. Y.; W. H. Beecher, Journal, Dunkirk, N. Y.; Wm. Ricelet, Chronicle, Warren, O.; Azra Goff, Dispatch, Erie, Pa.

Letters were received from Hon. J. M. Sterrett, President, J. B. Gara, Sec. of State, and L. M. Morton, of the Pitkin Record. The trials on all the roads seemed to be out of time, and some members were delayed till evening.

Hon. J. M. Sterrett, the President, being prevented by illness from attending, the Vice President, J. H. Cogswell, of the *TITUSVILLE HERALD*, called the meeting to order.

The first business in order—election of officers—taken up, and the following named were elected: President—Hon. J. M. Sterrett, Erie, Pa.; Vice Presidents—J. H. Cogswell, Titusville, Pa.; C. E. Bishop, Jamestown, N. Y.; Secretary—J. Kaelin Rapert, Conneautville, Pa.

Treasurer—Wm. Ricelet, Warren, Ohio. Samuel Woods, of the *Erie Dispatch* and L. M. Morton, of the *Pitkin Record*, were duly elected members of the Association.

The general interests of the Association being brought up for consideration, the following resolutions were offered, considered and passed:

By Mr. Lynn: Resolved, That a committee of three be appointed to draw up an act to authorize the publication of the State and local laws, in such manner as may be thought best, to meet the object, and that this committee be authorized to send a copy of this act to every newspaper in the State and ask the publishers to sign it and forward it to their members in Harrisburg and request its passage.

Carried, and B. F. H. Lynn, Benj. Whitman and J. H. Cogswell, were appointed such committee.

By Mr. Graham: To amend Article IV of the Constitution. Sec. 1st.—The regular annual meeting of this Association shall be held in June of each year, on each day and at such place as shall have been designated by the officers of the Association.

Carried by a unanimous vote.

Resolved, That the officers of this Association be appointed a Committee to make arrangements for an address, poem, or other interesting lecture for the next meeting. Carried, and the officers of the Association then designated (Capt. Jesse H. Lord, of the *Scientific American*), as the person to fulfill this duty.

A varied course of topics was discussed, but as they mainly concerned the press and are not of general interest, we forbear to impose them upon our readers.

Capt. J. H. Lord, editor of the *Scientific American*, came from New York to attend the meeting, and confessed to have been well paid for his trouble. At the request of the meeting he delivered an impressive address on the objects for which the Association was formed, and the benefits to be derived from a combining of the interests of editors and publishers. The address was clear, forcible and full of sound judgment. A round of applause followed the speech. He was followed by Messrs. Graham and Lynn upon the same subject.

A resolution of thanks was tendered to the proprietors of Cook's Commercial College for the use of their rooms.

The Association adjourned to meet at Brown's Hotel at nine o'clock.

The banquet provided by Messrs. Loomis & Tyler, the proprietors of Brown's Hotel, far exceeded the anticipations of the most fastidious. Editors are, as a class, good judges of what constitutes success in matters of this kind, and it was duly appreciated by actions, which, in such cases, are more eloquent than words, that Messrs. Loomis & Tyler are the right men in the right place. The bill of fare would give, and we room in our columns to spare.

The supper was followed by toasts, which were replied to by speeches. Stories, jokes, repartees, flashes of wit and scintillations of genius were as freely dealt in as though the stock were inexhaustible.

The party broke up at midnight, fully satisfied that the Lake Erie Press Association, is now in a fair way to accomplish the objects for which it was organized. The last we heard was three cheering cheers for Loomis & Tyler, of Brown's Hotel, who, actuated either by that good nature that seems to be an overruling element with them, or by a sense of what the Press does for all the varied interests of society, for which they are never recompensed and do not expect to be, could not be prevailed upon to receive any remuneration for the banquet or the general entertainment of the party.

**OTITITIS.**—This disease is distinguished by a purulent or mucopurulent discharge from the ear, which is only a symptom of the real disease. Many suffer through life with this evil under the impression that it cannot be cured, or because some wonderful prodigy has promulgated the idea that to arrest the discharge is to open up the poison in the system to break out in some more dangerous spot. The stupidity of such persons is to be pitied. What I keep open a sliver way for running off corrupt humors, or cleanse the fountain, that the filthy stream may dry up! A timely use of common sense, guided by a competent knowledge of the nature and causes of this disease, will eradicate it in a short time, not only without injury but with a remarkable improvement of the general health.

The causes of this affection are inflammation from teething or from exanthematic diseases, from polyp, from granulations of the membrane, from typhoid, scarlatina, &c. It is easy to see that if the cause is a polyp, it can be easily removed, and with a little danger as the extrusion of a wart on the hand. The same is true if granulations of the tympanum are the cause. And if the inflammation is the result of a scrofulous condition or a malarious poison, eliminate the poison or change the malarious and the cause ceases. Thus a safe cure is effected. The different varieties and causes of this troublesome complaint may be treated at Dr. Aborn's office, and a safe and sure remedy obtained. Parlor at the Crittenden House from the 12th.

## Southern Immigration.

The old saying "Westward the Star of Empire takes its way," is likely to find quite as forcible application by the substitution of "Southward." The abolition of slavery and the settlement of the vexed issues resulting from the war, will soon render some of the Southern States unpropitiously attractive to permanent settlers, and they are destined to absorb a large proportion of the tide of immigration which has hitherto been almost monopolized by the great Northwest. Northern capitalists have foreseen this, and are already sowing for an abundant harvest. Large tracts of land have been purchased in several of the Southern States, and with the opening of spring, immigration parties will be organized for the purpose of pushing these plans to a practical development.

Perhaps the most inviting locality thus offered is Middle Tennessee. Its climate is as mild and genial as the south of France. Its agricultural capabilities will compare favorably with the best of the Southern States. Its valleys and hills, tops witness almost perpetual summer, and they afford pasturage throughout the winter months. Fruits in all their varieties are grown in great abundance. Its countless streams afford the greatest facilities for manufacturing purposes. There are forests of pine, white wood, oak, chestnut, walnut, maple, ash; its mines of iron and coal are almost inexhaustible, and lastly, its climate of all have been opened, and promise to equal, if not exceed those of Western Virginia. All that such a country requires is immigration, coupled with Northern skill and energy, and enterprise, in its practical application. It is for this purpose that a charter has been procured from the Tennessee Legislature under the name and title of the "Southern Immigration and Mining Company," for the purpose of supplying cheap homes on easy terms to all who desire a more genial climate, and for the development of the Company's inalienable rights in mines.

The Company's property consists of about forty thousand acres of land in fee simple, located in the counties of Hickman and Humphreys, mostly in Hickman, Tennessee. The land has been well selected, and is admirably adapted for the purposes of immigration and mining successfully. The Company is organized under the laws of the State of Tennessee, with the most liberal charter, section second of which says: "And be it further enacted, that the Company shall have the power to acquire, enjoy and possess estate in fee, or otherwise, real and personal; to lease, release, buy or sell, or otherwise acquire or dispose of any species of property; to plant vineyards, build houses, manufacture, erect machinery, mine, transport and sell any products they may acquire; to carry on any agricultural, manufacturing or commercial pursuits; and generally to do any or all things that they may think necessary for the good of their company, colony, or community, except banking."

According to the last census the population of Hickman county was ten thousand, and Humphreys county about nine thousand five hundred, and there are today some three hundred settled settlers on improved farms at different points adjoining the Company's lands.

The Company's property is capable of producing almost everything raised elsewhere, and is remarkably adapted to the production of cotton, tobacco, corn, potatoes, wheat, rice, barley, flax, oats, and nourishing crops of all kinds for patients. For stock raising, no better land can be found in the country. For fruit culture it cannot be surpassed, with much the energy displayed by a Northern farmer. To capitalists, and those desiring to invest small sums, this Company offers extra inducements. Their property is real estate, with perfect titles, bought at low figures. Under these considerations, with care and proper management, the stock must prove a valuable investment; the most skeptical can easily be convinced of this fact by close examination of the prospects, reports, &c. The capital stock of this company is \$250,000, with \$50,000 in the stock reserved as a working capital, divided into ten thousand shares, of the par value of twenty-five dollars each; subscription price twenty dollars per share. The company will be organized by the election of President and Directors as soon as a sufficient amount of stock is sold. The stockholders are entitled to one vote for each share by, she, or they may own. Until such election, the Commissioners are empowered by the charter to open books for subscription, collect moneys for the same, and to transact all business connected with said company. It is proposed with the working capital to survey the lands into farms for settlers, erect farmhouses, mills, &c., or to do such other things as the President and Directors may deem necessary for the best interest of the Company.

Messrs. George B. Reed & Co., of this city, are the Commissioners or General Agents, and can furnish all additional information desired upon the subject. The senior member of the firm is well and favorably known here, where he has resided for several years past, and has been among the most extensive and successful operators on Oil Creek.

**THE FREE CONCERT SALOON**, as stated yesterday, was gobbled up by the police on Thursday night, upon warrants issued by Justice Strauss. The parties arrested were thirteen in number, viz: C. E. Barton, B. F. Finley, R. E. Jacobs, Nettie Aiken, Maggie Forest, Mary McDonald, Nellie Byron, Maggie Carr, Susan Kane, Frances Barton and Carrie Agan. One of the proprietors, C. B. Adams, escaped through a back door. They were conducted to the Justice's office, where a preliminary examination was held, and the testimony of various citizens taken with regard to the character of the establishment, and they were held to bail in the sum of \$500 each to appear at the next Court of Quarter Sessions.

A large crowd of citizens were in attendance, and the affair created quite a sensation. The parties were unable to find bail, and were accordingly locked up under the Engine House.

Adams surrendered himself yesterday to the officers, and being permitted to go in search of bail, accompanied by an officer, improved his opportunity to run away. A chase ensued, but the fugitive had a good start, and when last seen was forcing Oil Creek, and pointing for Oil City. He is probably now "rafting" it on the Allegheny. The remainder of the prisoners will be taken to Meadville to-day.

**PETROLEUM SCOTCHION TO-NIGHT.**—Lecture by J. H. Bunting, Songs by P. H. Cronin. Views of wells and towns in the oil region. Admission 50 cents.

**RAILROAD PROJECT.**—The Williamson Bulletin terms that the enterprise of building a new railroad from the Catawba Railroad, in Northumberland county, to the Atlantic & Great Western, in Mercer county, is assuming a definite shape. The report of the engineer, published a year ago, has been fully sustained by the examination made the past season. Philadelphia and the lakes will be connected with grades not exceeding forty feet per mile.

**NO CUTTING OR PROBING ABOUT THE EARS.**—Dr. Aborn, the distinguished Oculist and Aurist Surgeon and Physician for the diseases of the Throat and Chest, who has a world-wide reputation for curing cases after all other means have failed, does not subject his patients to cutting and probing or any other painful operations. Parlor at the Crittenden House from Monday, the 12th, until March the 4th.

## (Continued.)

A number of the members of Aaron Chapter, No. 207, of the city of Titusville, left here yesterday on a visit to the Masonic Chapter at Columbus, Erie county. The delegation comprised Charles L. Wheeler, M. E. D. G. H. P., and companions, Wm. R. Barber, Michael Burdett, H. R. Porter, Wm. C. Cole, John S. Wheeler, J. Wheeler and J. C. Goetsch of Titusville, and J. G. Burlington of Spaniardsburg.

During the evening the M. E. D. G. H. P., Charles L. Wheeler, assisted by the above mentioned companions exemplified the M. M. E. M., and R. A. degrees for the instruction of Columbus Chapter, No. 200.

The occasion was a very pleasant one and the work reflected credit upon those participating therein. On M. E. G. High Priest of the State, S. H. Perkins, of Philadelphia, evinced sound judgment in the selection of Companion, Charles L. Wheeler, to his present position in this Masonic District, while the latter by his skill and earnestness in the discharge of the duties pertaining thereto, merits the commendation of all interested in the progress of Royal Arch Masonry.

**A PUBLIC BENEFACTOR.**—Dr. E. S. Aborn, whose rare skill in the treatment of special diseases, has given him a world-wide reputation, is now stopping at the Franklin Exchange, where he will remain for consultation and advice until Saturday, 15th.

The number of middle-aged mountaineers traversing the country, and pretending to cure all diseases that flesh is heir to, has given the larger part of the community a distaste to traveling physicians. This prejudice is natural enough, and in a large majority of cases it is proper. But where a man effects cures of obstinate local diseases, of long standing, and among friends and neighbors, whose testimony may be relied on, and whose actual condition before and after treatment is a matter of public remark and wonder, the physician who effected these cures is not an impostor or quack. There is something in his mode of treatment not generally known to the faculty, and his success, not in a single instance, but in many, is the best guarantee of skill.

Dr. Aborn has made diseases of the eye and ear his special study. In addition to this, long practice in these departments of human suffering has given him knowledge unknown to the general practitioner, however eminent he may be in his profession. The man who devotes his thoughts to a specialty, is the superior of him who does not, all other things being equal.

We do not know that we could do a better or more humane act than to recommend those who are afflicted with disease of the eye or ear to call on Dr. Aborn. He has performed cures in cases given up as hopeless years ago, by a single operation. If the case is beyond his art, he will frankly say so, and neither put the patient to useless expense nor make him suffer the pangs of hope deferred. —*Franklin Spectator*, Feb. 8th.

**PETROLEUM SCOTCHION TO-NIGHT.**—Lecture by J. H. Bunting, Songs by P. H. Cronin. Views of wells and towns in the oil region. Admission 50 cents.

**THE INTERESTS OF MANY.**—The adaptation of means to ends is not less a human than all the legend. Every man is designed for some special purpose. He is given certain qualifications, which, with a proper direction and education, must inevitably result in a definite character for good or ill. Take, for instance, a man with a natural adaptation for medicine and surgery, with proper training, an ambition to excel, seeking far and near the widest experience, studying closely every phase of nature, nothing with tenacious memory any faculty of disease, until finally he is almost a "disease's twin brother," so closely does he follow and understand the insidious attacks of disease, and endeavor to thwart them. We do not, as a general practice, care to make observations upon particular instances, but the success of Dr. Aborn, since his advent in Nashville, is an unmarked and peculiar, that in justice to the suffering, we cheerfully lay aside the reserve and speak *en amore* of what we believe. We have indubitable evidence of his skill as an artist in several cases of great difficulty in treatment, and the numerous certificates that he possesses, besides the number of first class patients now in his hands, places him in the front rank as a general physician and surgeon. Success in practice is the gauge by which to test a physician. If he is truly a physician he will cure where his art has not sooted a doom!

"Dr. Aborn has had, and has, under treatment, some of the most respectable and reliable citizens of Nashville, and his growing reputation is founded upon the rare basis of successful practice." —*Nashville Press and Times*.
